

Archie roach

Archie's full name is Archibald William roach. He is an indigenous Gunditjmara and *Bundjalung person*. He had his lung to be removed after the event of the stroke. He was born in 1956 in Mooroopna. Sadly he was taken away from his parents at the age of three

Archie's album names Charcoal lane, tell me why. Jammu dreaming, Let love rule, Looking for butter boy and a lot more. Archie's personal life Archie had had a series of major events in his life first off all his wife died in 17th of February 2010. Ten months later he had to be sat in a wheelchair after the drastic event of having a stroke on 14th October 2010. He is 66 year old with 2 sons and a great talent. More about music he started to catch the attention of music at 1989 and was inspire by Paul Kelly he started becoming famous in the early 90s.

Archie's full name is Archibald William roach. He is an indigenous Gunditjmara and *Bundjalung person*. He had his lung to be removed after the event of the stroke. He was born in 1956 in Mooroopna. Sadly he was taken away from his parents at the age of three. He was two years old when his parents moved him into adoption when he turned 14 years old his sister started sending him letters about how she felt about how her parents left them.

1992 this day was a very sad day for Archie because his wife Ruby Hunter died he also had to get his lung romped and now has to carry a oxygen tank. Archie Roach had had a depressing past and would have been very sad for him.

Archie Roach is a great person he is such a good guy and he has a great life ahead of him he has a great talent and should continue what he is doing he has so many albums and he is going to achieve so much in the future.
