

BROWYN BANCOFT

**Brownyn Bancoft is a proud, thriving Bundjalung woman. Her amazing art skills have brought her a long way. In 1958, on the 23rd of September, and grew up in Tenterfield, New South Wales. She has grew up close with her six siblings and has a very close, loving family.**

**Ned Manning Is a lovely man, also known as brownyn Bancofts beloved husband. She has also three lucky kids, known as Ella Bancoft, Jack Bancoft, and Ruby Rose Bancoft . Sadly her dad died in 1990 when she was only young. Brownyn Bancoft does not usually talk about her siblings because they were separated when they were young and don't remember much about each other. Although, she has forgotten about her past and moved on and became very successful and is even more passionate with her art career then she ever has been.**

**Brownyn Bancoft is a very successful woman. In 1989 she accomplished going to her first solo art exhibition and showed off her OWN ART!!! She even started her own business in 1985 and is still the director, Designer Aboriginal was the name. Moving on to the book side of it all, she has written about 20 books!!! And has illustrated a lot more books. To learn all this good knowledge she went to University of Sydney, and the Australian national university. However there are many more accomplishments she has made and some of them are really astonishing.**

All this hard work Brownyn Bancoft has put in has really paid off, considering she has had her art displayed at the national art gallery, can you believe that! She also is known for her colourful paintings, prints and textiles designs. Brownyn Bancofts has received an Australian multicultural children's book award for all her fantastic books she has written and illustrated. I feel that she definitely deserves all this love and attention for all her wonderful art she has given to us.

As we have been through this many times Brownyn Bancoft has, and is still to this day achieving fantastic things. For all this hard work she was awarded the Centenary Medal Of Australia for all her contribution to the art world, and all the good, positive stuff she a put into the world. And I think everyone could agree with me that Brownyn Bancoft is an amazing person.
